Driving Innovation, Empowering Growth

Vision

To be a catalyst in the digital transformation of enterprises and public sector organisations by offering cutting-edge, reliable, and future-ready IT infrastructure and services.

Mission

We are committed to translating complex technologies into meaningful business outcomes. Our goal is to empower clients with dependable, cost-effective solutions that improve operational performance, ensure compliance, and accelerate growth.

Services We Offer

We provide end-to-end IT solutions, from cloud management to digital marketing, driving growth, innovation, and long-term success.

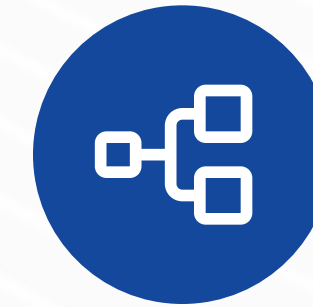

Data Centre

Maximise uptime, scalability, and security with next-generation data centre solutions from infrastructure planning and smart design to seamless data migration and deployment.

IT Consulting & Management

Leverage expert IT consulting to optimize your infrastructure, enhance operational efficiency, and align technology with your business goals.

Cloud Management

Efficiently manage and scale your cloud infrastructure with proactive monitoring, cost optimization, and reliable cloud operations to enhance business agility.

Security & Compliance

Protect sensitive data with comprehensive security solutions and ensure compliance with industry standards, safeguarding your business from evolving cyber threats.

Centralised IT Help Desk

Reliable, responsive, and expertly managed support our certified engineers deliver tailored IT help desk solutions that keep your business running smoothly.

Solutions We Provide

Explore our comprehensive range of IT solutions designed to meet your unique business needs and drive long-term success.

Data Backup & Recovery

Ensure your data is always safe with our secure backup and disaster recovery solutions. Our restore services minimize downtime, guaranteeing quick recovery and business continuity when needed most.

Cloud

Unlock the full potential of the cloud with our migration, operations, and hybrid cloud solutions. We help you scale, innovate, and optimize your infrastructure for enhanced agility and performance.

Enterprise Service & Application

Maximize operational efficiency with tailored enterprise service management and application solutions. We optimize workflows, improve system performance, and drive business transformation through seamless integration and support.

IT Infrastructure Modernisation

Stay ahead of the curve by modernizing your IT infrastructure. We specialize in application migration, data center setups, and disaster recovery, ensuring your systems are agile, scalable, and future-ready.

Decades of Innovation, Impact & Excellence

Key achievements that define our
commitment to technology leadership

1992–2000: Foundation & Service Model Innovation

Datatech began in 1992 as Silica Computers and rebranded to Data Tech Computers Pvt. Ltd. in 1996. It earned ISO 9001 certification by 1998, reinforcing quality focus. In 1999, the FMS model was launched to support BFSI, education, and industrial sectors. From 2000 to 2003, Datatech enabled digital education by supplying desktops to schools and executed a key IT project with the Commissioner of Central Excise & Customs.

2001–2010: Strategic Partnerships & Government Expansion

Datatech became an HP Premium Business Partner in 2002 and an HP Authorized Support Partner by 2005. It rolled out nationwide FMS support for Zydus Cadila and Aditya Birla Group in 2006. In 2009, it implemented IT infrastructure across 11 GMDC mining sites. By 2010, it had launched a global software division to serve overseas clients in web and digital services.

2011–2020: Recognition, Infrastructure Excellence & Market Leadership

The company won Best System Integration (SME) in 2011 and earned ISO 20000 certification in 2013. Datatech built data centres for the Indian Air Force and Gujarat government while expanding rural IT services to 13,500+ villages. Recognitions included HPE Gold Partner, Print Champion of the Year, and Top 100 Super Partner. By 2020, it had modernized 2,000+ police stations and was leading large-scale government tech deployments.

2021–2025: Cloud Strategy & Enterprise Leadership

In 2021, Datatech partnered with Microsoft and AWS to deliver cloud-based solutions and refocused on enterprise IT. Its offerings now include servers, networking, cybersecurity, managed services, and cloud migration. The enterprise vertical grew to over 60% of total revenue. With partnerships across Nutanix, Red Hat, Fortinet, and others, the company strengthened its hybrid and cloud-native capabilities. In 2025, it achieved CMMI Level 3 certification.
